Summary

Full Stack Developer specializing in JavaScript, Node.js, and database-driven systems with experience building scalable applications and REST APIs. Developed projects including AI-powered platforms, real-time systems, and subscription-based applications with payment integration. Focused on backend architecture and building reliable, maintainable systems.

Education

MCKV Institute of Engineering

Bachelor of Vocation — Software Development

Expected Graduation: June 2026

Howrah

- Hackathon Runner-Up — **SGPA: 9.7/10**

Work Experience

Trideon Tech

Software Development Engineer Intern

May 2025 – June 2025

Remote, IN

- Developed backend modules for subscription management and payment workflows using **PHP** and **MySQL**, integrating **Razorpay API** and optimizing database schemas and authentication logic for secure and reliable transactions
- Designed and implemented **RESTful APIs** for frontend-backend communication, using **Postman** for testing and validation while contributing to improved backend architecture and smooth deployment of web applications

Projects

DevRo AI | Website | Source Code

ReactJS | Firebase | Razorpay | AI APIs

- Built an AI-powered platform that converts prompts into structured HTML and React websites with real-time preview using multiple LLM APIs
- Designed a scalable SaaS architecture with subscription-based access using **Razorpay**, implementing authentication, usage control, and dynamic content generation with **Firebase**

HITRO-AI | Source Code

ReactJS | Laravel | Firebase | Razorpay | AI APIs

- Built a full-stack AI platform integrating multiple tools including code generation, content creation, and translation.
- Implemented secure authentication and subscription workflows using **Firebase** and **Razorpay** for controlled access and scalable system design

HITRO-Chat | Website | Source Code

ReactJS | ExpressJS | MongoDB | Stream API

- Developed a real-time chat application with friend system and persistent messaging using **WebSockets** and **MongoDB**
- Integrated video calling using **Stream API** with secure authentication and real-time session management

Online Game Hub | Website | Source Code

ReactJS | Firebase

- Built and deployed a multi-game platform with 10 browser-based games using **ReactJS** and **Firebase**, featuring authentication, real-time data handling, and deployment on a custom domain

Technical Skills

Programming Languages: JavaScript, PHP, Python, Java, C

Frontend: React.js, HTML5, CSS3, Tailwind CSS, DaisyUI, Framer Motion

Backend & Databases: Node.js, Express.js, Laravel, Razorpay, AI APIs, MySQL, MongoDB, Oracle

Tools & Platforms: Git, GitHub, Postman, Firebase, Vercel, Render, Hostinger

Certifications & Achievements

- **Software Engineer Intern Certificate** | Trideon Tech
- **Full Stack Development using PHP & Laravel** | Ardent Computech Pvt. Ltd.
- **React.js and JavaScript Certification** | HackerRank | Earned via skill-based assessment
- **SQL Database Certification** | HackerRank | Earned via SQL assessment
- **Google Cloud Arcade Program** | Google Cloud

Leadership

Google Cloud & MCKVIE

Sep 2023 – Present

- Completed **Google Cloud Arcade Program** and achieved **Arcade Champion Tier** via cloud labs and challenges
- Organized multiple college events including a technical fest and two-day AI workshop, handling planning and execution
